Bancroft's Beautiful Flowers 1931

Where Roses Grow at Cedar Falls A House of Briarcliffe

For Cut Flowers, for Rose Plants for outside planting, our roses are of exceptional value. Four large houses—all in Roses.

This Is a Catalog of Dependable Things

The time is past when people will depend on Radio and general catalog houses for plants of quality. Buy of a house who grow what they sell and give your orders personal attention.

We do not sacrifice quality for price. You cannot get something for nothing. Service means quality of goods plus the ability to care for your orders in such a manner that you will come again. Our rapidly growing trade is with the class of people who are willing to pay a reasonable price for merchandise of quality. We do business on this principle—one good plant that grows and blooms is worth a half dozen that are grown so crowded and weak that they never make a good plant, no matter how you pet and fuss with them. Any order that does not prove satisfactory in every way we are ready and glad to make right—if proper claim is made within a reasonable time after time of shipment.

ERRORS: If goods received are not as expected compare with order, read Catalog carefully, and if we are in the wrong, write us at once. Every just complaint will have immediate attention.

REMIT by bank draft, express order, post office order or registered letter. **If personal checks are sent add 5 cents for exchange.**

TO RESPONSIBLE PARTIES goods will be sent on approval.

PLANTS BY EXPRESS. Have your plants, shrubs, etc., sent by express when you can possibly do so. We guarantee safe arrival of all goods by express.

NOTICE, Plants by Mail. Add 10c per dollar on all orders for plants to go by mail. Prices given in this catalog are not prepaid. Postage or express is to be paid by purchaser. All large plants must be sent by express.

WHEN TO ORDER. Give us as much time as possible. Do not be afraid to order even a week or two

FLOWERS FOR THE HOUSE THE SEASON THROUGH

You enjoy having flowers in the home and having them on the table when you have a few friends in; why not have them oftener? Part of the year you cannot grow them, but we make it easy for you to have them whenever you like, at a small cost. Our \$1.25 and \$2 boxes of cut flowers sent prepaid anywhere are always suitable whatever the occasion.

For the home, a party, for a birthday, or for a sick friend. Just mail us your card and with the address of the person who is to receive it, and we will do the rest. We know you will be pleased.

FLORIST TELEGRAPH DELIVERY

We are members of Florist Telegraph Delivery Association of America. Delivered to Any Part of the World.

We have a representative in or near every city, town, or hamlet who will fill and deliver anywhere any order, on short notice through our co-operate telegraph system.

ahead. You are sure of getting just what you want. Where an order is not sent in until the last thing, we sometimes have to substitute either in kind or color of flower wanted.

HOW TO ORDER. All customers will please notice that orders for early morning shipment must be in the night before. Our Post Office closes at 7 p. m. If you are not sure that your order will reach us before that time, it is safer to wire us. Telephone messages can be sent after 8 p. m. at considerable reduction. It is always best to telephone or telegraph your order when time is limited, as you are then sure of reaching us on time. **Don't trust the mails;** trains are often late and we often do not receive orders on time.

SUNDAY AND HOLIDAY MAIL. If your order is sent by mail for next A. M. shipment, be sure and affix a special delivery stamp if letter is liable to reach here on Sunday or holiday, as we do not receive all our mail until day following.

FLOWERS BY EXPRESS. All cut flowers, designs, etc., packed to carry long distance safely, either winter or summer.

FLOWERS BY MAIL. On request we often send small boxes of loose cut flowers by mail, as a rule they reach their destination all right, especially carnations, but much prefer sending by express, as flowers carry better. If orders are to go by mail, add 35c postage which includes special delivery stamp. We positively will not be responsible for time of delivery or for flowers freezing in transit by mail.

TERMS AND CONDITIONS. Cut flowers are strictly cash, and payments must be made immediately on receipt of flowers. We seldom send C. O. D. It often embarrasses those who buy, and it is a needless expense.

COMPLAINTS to be allowed should be made immediately on receipt of flowers. We stand ready always to make any wrong right.

RESPONSIBILITY. While we exercise the greatest care to have all flowers reach their destination on time, and, will not ship unless we are reasonably sure they will reach you on time, we positively will not be responsible for delays in trains, wrecks or express agents' negligence. **Should your flowers reach you too late, accept them under protest, do the best you can with them. If for a funeral, lay them on the grave, we will share the loss with you and take care of any claim against express company.**

OUR SHIPPING FACILITIES. The fact that the great florists, companies have the same agencies in this city is in itself a sufficient guarantee that there are none better in Northern Iowa.

GERANIUMS

The Geranium is the most popular plant for bedding purposes, and deservedly so, as they continue to bloom profusely in the hot summer months when other plants are scorched by the sun and dry weather. The new double varieties bloom as freely as the single and make as fine bedders, being more durable.

Our list of flowering Geraniums will be found complete. We have taken great care in selecting the different varieties showing characteristics of their own.

HOW TO HAVE A GOOD BED OF GERANIUMS

Plant in medium soil, not too much sand or manure. See that they are in a bright sunny place. After they once become established do not over-water as this will have a tendency to make them go to leaf growth; when weather becomes very hot a light mulch is beneficial. Always keep soil around plants stirred to a depth of at least one inch. Keep plants free from all old flowers and leaves and if any of the plants become ungainly, pinch off ends of long shoots.

SPECIAL NOTICE—Have your Geraniums shipped by express—it takes a long time for them to get over mailing.

HARDY ROSES—A SELECTION OF THE BEST

HOW TO PLANT—VERY IMPORTANT

When planting, care should be taken to set the plants deeply, planting them at least two inches below first point or branches and pounding the soil firmly around the roots. Don't crowd the roots, but dig a good, large hole, spreading out the roots; work the soil around the roots and pack firm as you fill the hole. When about two-thirds full of soil, give thorough watering; then when water soaks away, fill up the hole and firm the soil with your boot.

WINTER PROTECTION FOR ROSE PLANTS. This may be done with material most convenient at hand, such as leaves, straw, light manure, street sweepings, pine or cedar boughs, etc. Large Rose bushes will stand several degrees of frost and the covering should not be put on until winter has set in.

HOW TO MAKE ROSES BLOOM. In the axel of each leaf is a latent bud. Should the long, strong shoots or branches be placed and kept in a horizontal position, each latent bud will produce many flowers. Cut wooden hooks and peg the long straight shoots firmly to the ground. These branches will not only flower early and late, but will make robust wood, which can be treated in the same manner the following spring. Monthly and Hybrid Roses can thus be made to bloom continuously.

SUCKERS. Always remove any suckers that come up at side of plants—they are from the root graft of the roses, and they will not bloom and only rob the vitality of the plant.

HYBRID PERPETUAL ROSES

FRAU KARL DRUSCHKI. One of the finest pure white roses.
